

The image shows a close-up, low-angle view of a white, padded medical examination table. The table is positioned diagonally, with the head of the table towards the top left and the foot towards the bottom right. The padding is thick and appears to be made of a soft, white material. The background is a plain, light-colored wall. The overall aesthetic is clean and professional.

Examination Tables**

RITTER® EXAMINATION TABLES

DESIGNED WITH YOU + YOUR PATIENTS IN MIND

What makes Ritter by Midmark the most purchased brand of examination tables in the industry? It's our willingness to research, study and listen so we can meet your needs—and your budget.

The **Ritter 204** is the culmination of years of research in design, comfort and storage in a manual examination table. Equipped with three side drawers, the 204 model offers convenient point-of-care storage for large items like gowns and drapes as well as organized storage for smaller supplies and bulk items. Two front drawers ensure easy access during lower body exams while the pass-through side drawers enhance flexibility in room layout and workflow, supporting convenient access to supplies from either side of the exam table.

Stylish. Comfortable. Easy to clean.

The seamless design of the Ritter 204 upholstered top is as soft and comfortable as it looks. And the seamless upholstery design reduces areas where dirt and bacteria can accumulate so clean-up can be easier, faster and more effective.

REMOVABLE TOP SYSTEM

The one-piece, upholstered top is designed to be easily removed without tools for a more thorough cleaning or a quick upholstery change.

ONE-PIECE SEAMLESS DRAWERS

The Ritter 204 drawers are designed with rounded, seamless edges to help contain spilled fluids and improve infection control.

ENLARGED FOOTSTEP

We increased the size of the footstep to over 40% above the industry standard to help patients feel more secure when accessing and exiting the table.

PULLOUT STIRRUPS

Integrated in the exam table, the pullout stirrups provide leg support for patients during lower body examinations.

ELECTRICAL RECEPTACLE

Receptacles on the left side of the chair provides a power connection for devices.

PELVIC TILT + DRAWER WARMER

Improve patient positioning and keep your supplies warm during exams, especially in the OB/GYN space. (Optional features)

Accessories + Options that add versatility

Upholstery Options

Flat
Provides an additional working surface for exams and procedures where you need a little more space.

Seamless
Plush, seamless upholstery is designed to be more comfortable for the patient and easier to clean.

Soft Touch
Designed to be comfortable for the patient yet durable enough to stand up to the rigors of the clinical environment.

Accessories

Assist Handles
Designed to offer patients a stable platform for accessing the table and a sense of security during ingress, egress and positioning while on the table.

Ritter® 253 LED Exam Light
The 253 is designed with easy access controls, high-intensity light and an adjustable focal spot. Available in table or wall mount and mobile options.

Adjustable Arm System
Designed to offer patients a stable platform in accessing the table and a sense of security during positioning. Arms rotate and lock into one of three positions and are easily removable.

Stainless Steel Treatment Pan
Ideal for lower-body procedures or other situations in which removal of fluid and debris is necessary.

Articulating Knee Crutches
The unique ball-joint design allows for a maximum range of adjustment and can help ensure optimum knee and leg support.

Thick Footrest Pad
Enhance patient comfort during medical examinations with the thick footrest pad accessory.

Pass-Through Drawer Stop
The drawer stop accessory helps prevent overextension and is available in sets of three.

Ritter® 203 Treatment Table

FEATURES

The economical Ritter 203 is constructed of steel from its frame to its legs. This metal-on-metal design helps give the 203 stability and structural integrity. Its flat-top design provides a stable, solid surface for patient manipulations or adjustments during examinations while extra padding and a built-in headrest pillow help keep patients comfortable. And the Mist-colored base complements any of the Ritter upholstery colors. (Paper roll holder included.)

OPTION

Drawers

Rounded drawers with color inserts are available on the right or left side of the table.

Ritter® 95 Treatment Table

FEATURES

The Ritter 95 is an economical solution that's built to function in a wide range of applications. It's ideal for new medical practices, industrial first aid areas, school nurses' stations or as an additional table wherever needed. The hardwood construction and H-brace frame design improve strength and stability while the 27" width and 72" length help accommodate a wider range of patients. (Paper roll holder included.)

OPTION

Vinyl Upholstered Shelf

Provides space at the point of care to place supplies or use as an additional worksurface.
